

# Plastic Molding at a Glance

1

## Pre-Automation Project Planning

Prototyping and CAD Design  
Production Evaluation  
Material Consideration  
Planning and Budgeting  
Develop Specifications  
Design for Manufacture  
Recommendations  
Ramp Up Strategy  
Tool Transfer Protocols

2

## Automation Design

Design Plans  
Build to Print  
Manufacturing  
Assembly  
Testing  
Production  
Delivery  
Shipment  
End to End Expertise  
Cost Efficient Process

3

## Automation Services

Insert Molding  
Overmolding  
Two Shot Molding  
ISO Class 8 Cleanroom  
Mold Repair and Maintenance  
Value Added Secondary Services  
Tool Transfer Program  
Project Management  
Engineering & Customer Support  
Partnership and Long Term Service

60+

## Years of Experience

We design and produce custom plastics for leading manufacturers.

4

## Four U.S.A. Plants

Hudson, MA  
Berlin, CT  
South Bend, IN  
Lancaster, PA

155+

## Staff

Highly Skilled Engineers  
Customer Support  
Associate Team Members

213,000  
sq. ft.

## Production Area

CT- 67,000 sq ft.  
IN - 41,000 sq. ft.  
MA - 80,000 sq. ft.  
PA - 25,000 sq.ft.
